EDUCATION

- **VIT Bhopal University** (September, 2022- Present)
B.tech in Computer Science Engineering Specilisation in Health Informatics | CGPA: 8.17
- **The Oxford Higher Sec School, Sehore (M.P.)** (June, 2021)
Higher Secondary | Percentage:91%

Skills

C++, SQL, ReactJS, HTML/CSS, MERN Stack.

Projects

FitBit Health Management Platform (January, 2023 - April, 2024)

- Engineered a comprehensive patient health management web application featuring real-time health tracking (steps, heart rate, sleep patterns), patient medical records, appointment scheduling, and health analytics dashboard. Designed to streamline healthcare delivery by providing an integrated platform for patients and healthcare providers to monitor vital health metrics and improve care.
- Deployed React.js, HTML5, CSS3, and JavaScript for the user interface, creating responsive and interactive components for health data visualization, patient profiles, and doctor-patient communication portals that successfully supported 100+ active users across multiple devices and platforms.
- Led Frontend Development and implemented modern web technologies in collaboration with backend Node.js developers. Utilized React component architecture and state management to deliver seamless real-time health data updates, secure patient authentication, and optimized API integration for comprehensive health monitoring solutions.

BookWorm Platform (November, 2024- December, 2024)

- Designed and implemented interactive book catalog with advanced search, filtering, and sorting capabilities.
- Created user authentication system with secure login, registration, and profile management features .
- Integrated RESTful APIs built with Express.js and Node.js for seamless data communication between frontend and backend services.
- Designed responsive layouts using CSS3 and JavaScript to ensure optimal user experience across desktop, tablet, and mobile devices.
- Developed secure user authentication system with JWT tokens and implemented payment gateway integration for secure transactions.

Certifications

- IBM GenAI (January, 2025)
- MERN Full Stack Internship Program, Ethnus (May,2025)
- The Bits and Bytes CourseEra (January,2023)

Additional Information

- 5 Star in C++ and SQL, Hacker Rank.
- Solved 300+ questions on geek for geeks coding platform.
- Hobbies: Reading, BasketBall.
